

# MCAO Safety Group Members Receive over \$8 Million in WSIB Rebates

## *Safety Groups Program Overview*

The MCAO Safety Group provides Mechanical Contractors with the opportunity to work together on implementing prevention programs designed to reduce workplace accidents/injuries.

**We can set up local group chapters** in any MCAO Zone in Ontario to address and deliver specific programs designed for the mechanical contracting industry.

MCAO safety group benefits:

- Become a member of a large successful safety group while retaining the existing local membership qualities.
- Meetings held in your local area.
- Larger premium pool = less risk and additional financial rebate of up to 6% of your annual premiums
- Retain the services of a consultant who is a member of your industry and understands your unique business needs
- Increased experience rating rebates
- Reduce workplace hazards and the risk of injury
- Improve disability management and RTW outcomes
- Gain practical useful information from industry leading safety and disability management professionals.
- Realize the advantage of being a member of **one of the longest running and most successful Safety Groups** in Ontario.
- No Risk. No upfront fees to join!

# MECHANICAL CONTRACTORS WORKING TOGETHER TO ACHIEVE SAFETY

## *About Us*

2012 marks MCAO's eleventh year as a sponsoring organization of the WSIB's (Workplace Safety and Insurance Board's) extremely successful "Safety Group Program".

Over this time, MCAO "Participating Firms" have achieved total rebates (from the WSIB) of over **\$8,000,000** – all of which has been shared among them (proportionate to their overall work activity).

In addition, members of our group perform better than the industry. Our frequency and severity rates are the best in the industry and significantly lower than the industry average.

The value realized by these participants in the program (in the form of significantly improved safety policy, practices and awareness)... echoes the true success of our Safety Group (which focus on peers sharing "best practices" regarding safety; and collectively learning new techniques to enhance safety across their operations).

**If we are able to have at least 10 firms join in each zone, we will support a local chapter!  
Complete the attached application and join the best safety performers in the industry**

MCAO strongly encourages you to sign up for this most valuable initiative.

***Learn more about how MCAO can set up a local Safety Group Chapter in your Area!***
